Dear Sir:

REQUEST FOR CORRECTION OF ERROR ON FILING RECEIPT

The updated Filing Receipt issued for the above-referenced application after the petition to withdraw the holding of abandonment was granted on May 9, 2001 contains an error with respect to the filing date. The updated Filing Receipt recites November 22, 1999 as the filing date of this application. The correct filing date, however, is September 1, 1999, the filing date recited in the original Filing Receipt.

Attached is a copy of the original Filing Receipt showing the correct filing date of September 1, 1999 as well as a copy of the return post card also showing the correct filing date of September 1, 1999. Also attached for you information is a copy of the decision to withdraw the holding of abandonment.

Please correct this error or notify the applicants of the reasons for denying the request.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'J. Carey', is written over a horizontal line.

John C. Carey

Receipt is acknowledged of this nonprovisional Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Customer Service Center. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts of Application" ("Missing Parts Notice") in this application, please submit any corrections to this Filing Receipt with your reply to the "Missing Parts Notice." When the PTO processes the reply to the "Missing Parts Notice," the PTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

Filed: August 1, 1999

DECISION ON PETITION

For: AN APPARATUS AND METHOD FOR MAKING AN OPTICAL FIBER
AMPLIFIER

This is a decision on the documents filed by fax January 19, 2001, to withdraw the holding of abandonment in the above-identified application.

The above-identified application became abandoned for failure to reply within the meaning of 37 C.F.R. 1.113 in timely manner to the Notice to File Missing Parts of Application mailed August 21, 1999. Which set a shortened statutory period for reply of two (2) months. Accordingly, this application became abandoned November 22, 1999. A notice of abandonment was mailed on October 25, 2000.

On January 19, 2001, the office received a communication from the attorney of record. Enclosed was an acknowledgment that counsel had responded to the Notice to File Missing Parts on November 22, 1999.

The evidence submitted is sufficient to establish that the petitioners responded to the Notice to File Missing Parts of Application on November 22, 1999.

The petition is hereby GRANTED.

The filing receipt is enclosed.

The application has been completed for release to Technology Center 2872.

Telephone inquiries concerning this matter may be directed to Doshie E. Day at (703) 308-3640.

A handwritten signature in cursive script, reading "Doshie E. Day". The signature is written in dark ink and is positioned above the printed name and title.

APPARATUS AND METHOD FOR MAKING AN OPTICAL FIBER AMPLIFIER

Preliminary Class

359

Data entry by : DAY, DOSHIE

Team : OIPE

Date: 05/09/2001

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

PLEASE NOTE the following information about the Filing Receipt:

- The articles such as "a," "an" and "the" are not included as the first words in the title of an application. They are considered to be unnecessary to the understanding of the title.
- The words "new," "improved," "improvements in" or "relating to" are not included as first words in the title of an application because a patent application, by nature, is a new idea or improvement.
- The title may be truncated if it consists of more than 500 characters (letters and spaces combined).
- The docket number allows a maximum of 25 characters.
- If your application was submitted under 37 CFR 1.10, your filing date should be the "date in" found on the Express Mail label. If there is a discrepancy, you should submit a request for a corrected Filing Receipt along with a copy of the Express Mail label showing the "date in."
- The title is recorded in sentence case.

Any corrections that may need to be done to your Filing Receipt should be directed to:
